

CSDS Facilities Management Program

*You don't have to juggle your resources...*Solutions tailored for your company. Whether you're looking for supplies, service, equipment or a fully staffed in-house Reprographics Center, CSDS has an on-site solution to fit your needs.

- Supplies and Maintenance Bundles
- Inventory Programs
- Equipment Only
- Color Bundle
- Equipment and Staff

Gain Knowledge and Technical Resources

With CSDS On-Site Services you can benefit from the added knowledge and technical expertise that comes from over *50 years of combined experience* in the reprographics industry. Our technical support team works with your office and IT staff to insure system compatibility. We provide training to improve the knowledge and productivity of your staff and our color management experts can help you improve the quality of your output.

Expertise

Financial Efficiency

Keep your working capital working. Avoid obsolescence and transform your imaging costs into a revenue center with our pay-per-print plan. Our computerized control system tracks usage by product and generates reports for your accounting department. We make it easy and hassle free. *No cash outlay.*

Money

More Brand Names

We carry more *major equipment brand names*, not just a single product line. That means you get the best equipment for your specific needs. Our Configuration experts know the best equipment available on the market today and can help you make the best choice.

Equipment

No Training Headaches

Our experts insure that your staff is adequately trained. *Efficiency of workflow* and knowledge of the equipment will ensure that your projects are ready on time, the way you wanted them. With on-going training and our own reprographics department to provide continuous backup, your operation will remain efficient and worry free.
